Computer Engineering undergraduate with knowledge of **SQL, Python, Excel, and database management systems**. Skilled in data analysis with hands-on experience in data handling and analytical concepts. Completed industry-relevant certifications in data analytics and seeking an entry-level IT role to apply technical and analytical skills.

Experience

Assistant ERP Implementer (Internship)

Raviraj Process Controls, Navi Mumbai | July 2025 – August 2025

- Assisted in ERP implementation and module integration
- Performed data entry, validation, and maintenance for accurate records
- Used Microsoft Excel for reporting and data analysis

Projects

Integration of AI Tools Using AI Engine | 2025–2026

- Built a platform to compare outputs from multiple AI models in real time
- Integrated APIs for parallel AI response generation

Voice Assistant (Vee) | 2026

GitHub: github.com/Vaishh3003/Voice-Assistant-Vee-Python-Based

- Developed a Python voice assistant using speech recognition and TTS
- Automated tasks like app control and web search

Cosmopolitan Voting System | 2025

- Developed a web-based Cosmopolitan Voting System for secure voter registration, vote casting, and automated result management using SQL-based data storage.

Technical skills

Programming Languages: Python

Database Technologies: SQL, DBMS, Excel

AI & Technologies: Artificial Intelligence (Baisic), Machine Learning (Basics)

Additional Skills: Team Collaboration, Communication, Problem Solving, Data Analysis, Data Visualization

Education

Bachelor of Engineering (B.E.) – Computer Engineering

Watumull Institute of Technology and Engineering

CGPA: 7.5 | 2026

HSC (Science) – 70 % | 2022

SSC – 87% | 2020

Certifications

Data Analytics Job Simulation – Deloitte (Forage), 2026

Python Using AI – AI For Techies (2025)

Data Analyst Training (Twitter) – NULLCLASS (2025)
